
CSV Remove Lines And Text Software Crack [Mac/Win]

CSV Remove Lines And Text Software PC/Windows

CSV Remove Lines and Text Software Activation Code is an easy to use application whose main purpose is to provide you with the ability to clean your CSVs of certain strings of text, specific characters or even entire rows. Clean and simple user interface The program features a fairly simple appearance, with little to mention, since its looks match a lot of other tools out there. As a result, even if you are a complete novice, you will have no trouble figuring CSV Remove Lines and Text Software Torrent Download out and working with it immediately after installation. Effortlessly eliminate text, lines or characters from your CSV files For starters, you will need to load the CSVs that you wish to process, individually or by means of an entire folder. Since the application supports drag and drop operations, you can add your files with just a few moves of your mouse. Next, you will be able to specify the condition under which CSV Remove Lines and Text Software should operate.

For instance, if the file contains a certain word or letter, the utility can eliminate the entire line or column. It can also simply delete those specific characters or on the contrary, the lines or columns not containing the input symbols. Moreover, the tool lets you remove all text aside from the entered words, or you can get rid of a certain row/column from the file. Similarly, the program works just as well in eliminating blank lines from CSVs. Before processing the files, you can also choose the destination folder, as the default path is your desktop. A handy CSV cleaning instrument CSV Remove Lines and Text Software Description: CSV Remove Lines and Text Software is an easy to use application whose main purpose is to provide you with the ability to clean your CSVs of certain strings of text, specific characters or even entire rows.
