(establishing test for economic loss under § 2 of Sherman Act). 11
Although the parties, in addressing the amount of damages, have
not discussed the economic loss doctrine, we note that both
parties seem to agree that the harm to this plaintiff was primarily
monetary. They had to pay for a replacement system and to pay
to finance the purchase of the new system. Accordingly, we
conclude that the economic loss doctrine bars the damages
caused by this economic loss to the plaintiff. 12 The plaintiff has
also appealed the district court's grant of summary judgment in
favor of the defendant on the plaintiff's claims for non-pecuniary
losses. The plaintiff's amended complaint alleged that "[t]he loss

of business opportunity, damage to the reputation and good will of [the plaintiff's] business, and business losses to defendants' customers, all of which are incalculable, have occurred and will continue to occur as a direct and proximate result of defendants' actions and inactions." The district court found that the plaintiff's un rebutted testimony that this plaintiff had no continuing business with any of the defendant's customers supported the defendant's motion for summary judgment on this claim. 13 To prevail on a non-pecuniary loss, the plaintiff must show a special circumstance making an award of damages unjust. See *Sidney Blumenthal & Co. v. Industrial Authority of the State of New York*

Introduction of price hikes has already begun Finance and Corporate Affairs Minister Pramod Mahajan has said that the first installment of the price hikes will be announced in the coming days. A price hike at the rate of 5 to 8 per cent is being planned after the Finance Ministry approved an increase in FDI limit in retail and across the board increase in basic customs duty to 10 per cent from the current 5 per cent. While giving the approval, the Ministry also increased the limit on FDI in defence to 49 per cent. The government has decided to gradually increase the rate of duty on purchase of goods from the current 5 per cent to 15 per cent. The government has set up a committee to work out the modalities of implementation of the price hike. The government also allowed use of foreign exchange earned from exports in purchase of goods on a case to case basis, except for critical imports. The government would need to keep the situation under control to minimise impact on the economy.Q: Get the current selection of the UiQueryable collection I'm trying to get the current selection of the UiQueryable collection. In UiQueryable

example I found only to reorder the items from collection by user provided expression which should be just the same as IQueryable's sort function but it throws the InvalidOperationException: 'Cannot get the 'SelectedList' property because the value of the property is null.' is there any way to get the current selection of the collection? var _collection = myCollection.Load(); var _query = _collection.Load(); _query.Sort("Id"); var _selectedList = _query.SelectedList; A: Please try
