FIFA's new "Speed Things Up" and "Realistic Player Feel" features allow for a more fluid and dynamic experience, featuring a new pacing system that makes small-scale actions more impactful, while "Speed Things Up" gives AI opponents more speed and agility to respond to your actions. The game uses a new engine that allows for all of the fine detail, including the ability to add player texture variations, all while providing a more compact build. For the first time, you can experience three camera views from the broadcast and current match angles, among other things. For the first time, you can experience three camera views from the broadcast and current match angles, among other things. The game's all-new Touch Pad feature allows you to control your player's on-field movements by simply moving your fingertip in the direction you wish to go. This new feature gives you full control of all dribbling, passing, shooting, head and body movement, run/crouch, and even slide-control. Of course, you can also use the D-Pad to go through menus, change formations, and in Ultimate Team, activate special cards. FIFA 22, the first title in the franchise since 2010, will launch worldwide on September 28 on PlayStation 4, Xbox One and PC. In addition to the technical upgrades, the game also features many gameplay improvements, such as the ability to play as a defender on FIFA's All-Time Teams, and new Play Styles, including the more tactical Series Play and an authentic and aggressive variant of 4-2-3-1. The game is available for pre-purchase on PlayStation Store at the suggested retail price of \$59.99, and on the PlayStation VR platform. See below for more technical details on FIFA 22. The New Gameplay In one word: speed. For the first time ever in FIFA games, we are taking the ball and players away from the center of the action, and placing the ball and players on the edge of the action where it can only be done by creating a faster-paced, more dynamic experience. On offense, we've fundamentally altered how shots are taken. The action on the ball has been placed on the wings and the corner, where players can be more dangerous, and their attempts have been sped up to make them

Features Key:

- FEA Physics – Now players can feel & see the difference between their ankles, knees, hips, and shoulders thanks to more accurate player visuals. Players and objects react more realistically – with knees buckling on impact and players flailing their arms and hips with more power. This revolutionary system shows the player's posture and movements in a more interactive environment, giving players a greater understanding of the game's physique.
- FIFA Ultimate Team – Discover and play with hundreds of new kits, teams and rosters. You'll also be able to create your own team like you have never done before. Mix and match players, kits and more to build one of the greatest teams in FIFA history.
- FIFA Street – Punishers return to the laws of the street along with friends and Rivals to face the return of the gauntlet. Prove yourself on your own with 9 action-packed game modes on a 1:1 outdoor pitch for 4 versus 4 player play.
- Transfer market has been reworked with new player-to-player attributes, and new contracts.
- Career mode – Player origins have been brought into light, and options for which route to take from there. There's a clearly defined journey from amateur to Pro now (and more staying over at the senior level as well, with enhanced contracts and better progression).
