Reviews "Dead State – Dead State is a bit of a love it or hate it game. It's often so difficult that it's almost too hard, but it's also incredibly enjoyable, often being much more challenging than it is frustrating. Dead State has a lot going on, but the core gameplay is what makes the experience fun." Gamezebo "If you're up for a game that will challenge you, Dead State is a wonderful choice." Videogamer.net "Dead State is a strange but highly entertaining experience." Destructoid "I love how the game is like a graphic novel, full of incredible art and amazingly fun puzzles to solve. This game has a lot going on, both visually and thematically, and it's all held together beautifully." Unrealworld "This is not one to take lightly; this game is among the most demanding games of the year. Just getting past one room of enemies can be a challenge, so prepare yourself." Paint Warfare - Captain Bananas Supporter Bundle For Windows (Latest)

DoW2: Check out the rare collectible only in this pack...A brief history of Chris Carter you know, im not even good at selling an idea, but i know exactly what that DLC would be about and it would be one of the reasons i paid money for the game. people would call me a wannabe, but ive told them before. I can spend money on this game, but I dont have to spend money on DLC. it was a risk i took, but i think it's going to pay off. im looking forward to it, but ive also made my predictions about it being a flop, and honestly this dlc is the only reason I wont be claiming a loss on this game. We could have maybe gotten it with a season pass, but there are a lot of games that people would have never bought that I know of had the option been made available. Dragon Age 2, Arkham Knight, Titanfall 2, Infinite Warfare, all those were on my list and you know what, I still think they should have done a season pass for them all. It's a game, it shouldn't cost an arm and a leg, the price is absurd and its definitely not worth the money. If they really wanted to put the season pass and the Captain's challenge dlc in the same box, they should have just made it one DLC, but I think that they really wanted to charge people again, and they shouldnt have, they would have probably sold more than they did, but it would have been a little cheaper. The Captain's Challenge was all I ever really wanted, but it was never available at the time of release, they could have fixed that, they could have been a bit more transparent with their DLC, but it was something that they really wanted to charge people for. I actually like the game, but I honestly think they should of just made it one, I feel they have a lot of unfinished business that they should of went ahead and fixed, but I don't think that people who actually paid money to get it, should of gotten anything less than what they bought. I think we might have the same opinion on the same topic... Marketing! did want to point out some things for the developer that I would be very disappointed in if they were their CEO... 1. The exclusion of Online Co-op in the game. WOW WTF I thought that they would
