X, Moto X HD, and new DROID line It's just over two weeks until we get to see
the first official Motorola "Unlocked" phones on AT&T's network, and now the
company is dropping the release dates. The Moto X and Moto X HD have been
under a lot of scrutiny since their first announcement, with two of the most
important components (the screen and processor) coming from Samsung.
Motorola is finally ready to get the ball rolling on manufacturing, and its done
so with good news for Verizon customers. Moto X will launch as a "Motorola
One Year Warranty Upgrade" on August 26th, which means that consumers
will be able to purchase the Moto X on a new two-year contract while receiving
the same protection as a new device. The Droid Ultra and Droid Maxx will also
get a bump to July 23rd, and the same day for the DROID Mini. The Moto G is
already out in stores, and will come to the "Unlocked" market on August 26th.
